A careful operator in the stock market ald to me last night, of the general situ-

"There is every reason why the man who cares anything for his money should stay away from this market, except he be the worst of scalpers, who has no pleasure except in taking long chances for his money. The Cohan situation is so complicated and so full of possibilities in a thousand different directions that in a thousand different directions that the prudent speculators are unwilling to take risks for either the long or short account. I do not believe that the Presi-dent himself knows what he will do. With ten points margin I would be will-ing to sell the market, and with twenty points I would buy, but that does not mean anything in particular." mean anything in particular."

Secretary Long announced yesterday afternoon that he had information that the report of the Court of Inquiry will of be in the city until Thursday or Frinot be in the city until Thursday or Friday at the earliest. From another source as reliable it is known that the President has had reports of the work of the court and of its findings for the last two weeks. The only inference to be drawn from these two facts is that for some reason the Administration is keeping back its knowledge. This could hardly be construed to be in the Interest of war, and the presumption is strong that it is in straid to be in the interest of war, and the presumption is strong that it is in the interest of peace, and not an honora-ble peace, either. This fact ought to be good for a short rise in the market this morning. The report itself can hardly have say other effect than a bad one temporarily at least when it is given to the world.

The market yesterday was a matter of very little consequence as far as be-ing an indication of anything else than ing an indication of anything else than the feeling of uncertainty. The opening was at a point or more down from the close of Saturday. After that there was very little business except scalping, which had very little effect. The close was strong on early information that the report will not be received until the lat-ter part of the week.

There was a tendency to regard the ad-ournment of the passenger agents'

meeting last week, with nothing accom-plished, as a strong bear argument also, second only to the Cuban situation. No one can predict how much further the demoralization of rates will extend, as the Great Northern and Northern Pacific seem determined to make the fight ngainst the Camadian Pacific as bitter as against the Cambdian Pacific as bitter as possible. None of the roads concerned is a good purchase, certainly. It has been pointed out in this column several times that the fight is a most serious affair, and to be regarded as such by anyone who intends to speculate in any of the transcontinental securities.

Sugar is most erratic. There are two factions at work in it. This buying at the decline yesterday marning was far from good, but in the closing hoar with the remainder of the market there was a fairly good rally. The present prices are very low for the general presents of the company, and when the war is over there will undoubtedly be a great rally. I do not believe these will be any great slashing of throats between the trust and its competitors.

NORMAL NERVES

Pe-ru-na for forty years has been strengthening the nerves of the Nation and driving away catarrh.

The American people are a nervous people. "Americanitis" is a term recently coined by a bright writer in describing our national tendency to nervous rush. One of the certain evidences of weak and overwrought nerves is catarrh, and the only way to surely reach any catarrhal disease is through the nerves.

The source of catarrh is in the mucous membranes lining the entire body. Normal nerves make healthy membranes and catarrh becomes impossible.

Upon this magnificent theory Dr. Hartman forty years ago constructed his treatment of catarrhal discases, and the result is shown in his unexampled success. In Pe-ru-na Dr. Hartman has combined the elements that bring the nerves to a normal state. This regulates the flow of blood, makes clean membranes, and catarrh ceases to exist. Dr. Hartman is president of the famous Surgical Hotel, Columbus, Ohio. His attainments in medical

and surgical science have beyond question made for him an enviable place in the profession and in the hearts of the multitude he has helped. The proud distinction is his of providing a cure for catarrh and catarrhal diseases that has stood without a rival for forty years. "Pe-ru-na cures catarrh" has become

almost an axiom, and to the truth of it tens of thousand bear witness.

Mrs. C. C. FILLER, 1351/2 South Fourth Street, Columbus, O., writes: Dr. S. B. HARTMAN, Columbus, O.

Dr. S. B. HARTMAN, Columbus, O.

Dour.Str.—"For ten or fifteen years I have been subject to nervous dyspepsia. I would have spells of quivering in my stomach, with smothering feelings. My nervos were terribly debuilated. I was suffering from what is called nervous prostration. My stomach feit bloated, and I was constantly weak and trembling. I consulted several physicians, who treated me without doing me any good. I had almost given up in despair when I heard of Pe ru-na. It was about six yearsango that I first took Pe-ru-na. I found it a permanent relief to all my disagreeable symptoms. It is the only medicine that has ever been of any use to me."

A remedy that will cure catarrh anywhere will cure catarrh everywhere. Pe-ru-na cures catarrh wherever located, and makes the nerves steady and strong.

Mr. N. C. Macy, Oak Ridge Station, Pa., writes:

PERU-NA DRUG MFG. Co., Columbus, O.

Dear Sirs:—I feel like a new man since using your catarrh remedy, and believe I am cured. I am still using Peru-na by spells. My wife is using it to build up her nervous system, which is greatly run down and claims it helps her more than any medicine she can get. Last Saturday my wife took a severe attack of cholera morbus. She took Pe-ru-na and stopped it, also the pains that usually follow cholera morbus had to succomb to it. We are both using Pe-ru-na yet, and I never felt better in my life. I can recommend Pe-ru-na to any one suffering with all mentalike my own. You may make extracts any one suffering with allments like my own. You may make extracts from my letters if you desire to, as I was only stating my sincere convictions, and can substantiate all I said. Mr. L. B. Bailey, whose health was impaired and who always felt tired and haggard, by my persuasion began to use Pe-ru-na about a month ago, and now he looks like a different man. He says he feels one hundred per cent.

Mr. S. I. NANCE, Roberson Fork, Tenn., had catarrh fifteen years. He writes as follows:

Dr. S. B. HARTMAN, Columbus, O.

Dear Sir — "I will state that I am entirely well of that dreadful disease catarrh. I was afflicted with it for fifteen years, and it was a very aggravated case for the last five years. No one can possibly realize the value of Pe-ru-na until he tries it for himself. It will certainly cure the worst case of chronic entarth. I had as bad a case as I ever saw. I have taken seven bottles of Fe-ru-na and everyone was worth \$1000 to me. I haven't the language to express my gratefulness to you for your kindness to me and the interest you have taken in my case."

All interested persons should have Dr. Hartman's latest book on chronic catarrh. It tells how Pe-ru-na cures it. All druggists sell Pe-ru-na.
